RE: Title Insurance

To Whom It May Concern:

Kentucky Department of Insurance does not require Individuals or Business Entities to be licensed as Title Insurance Agents. Kentucky does regulate the Insurers who sell title insurance in Kentucky. At this time, we do not license nor regulate the individuals or business entities that sell the product. If a Title Insurance Agent from another state requests a license from Kentucky we will advise them that we do not license title agents. They will be treated the same as our resident individuals who transact title insurance business without a license.

If you need additional information please feel free to email the Agent Licensing Division directly at: DOIAgentLicensingMail@mail.state.ky.us.
